Using the Ministry Leadership Center Model:
Discernment is an on-going conversation among
TRADITION - CULTURE - INDIVIDUAL & COMMUNITY

The program is grounded in Carmelite, Catholic tradition. The tradition grounds the program. Culture informs how we interpret the tradition. The individual's experience and the community's experience evaluates the tradition and the culture in on-going discernment.

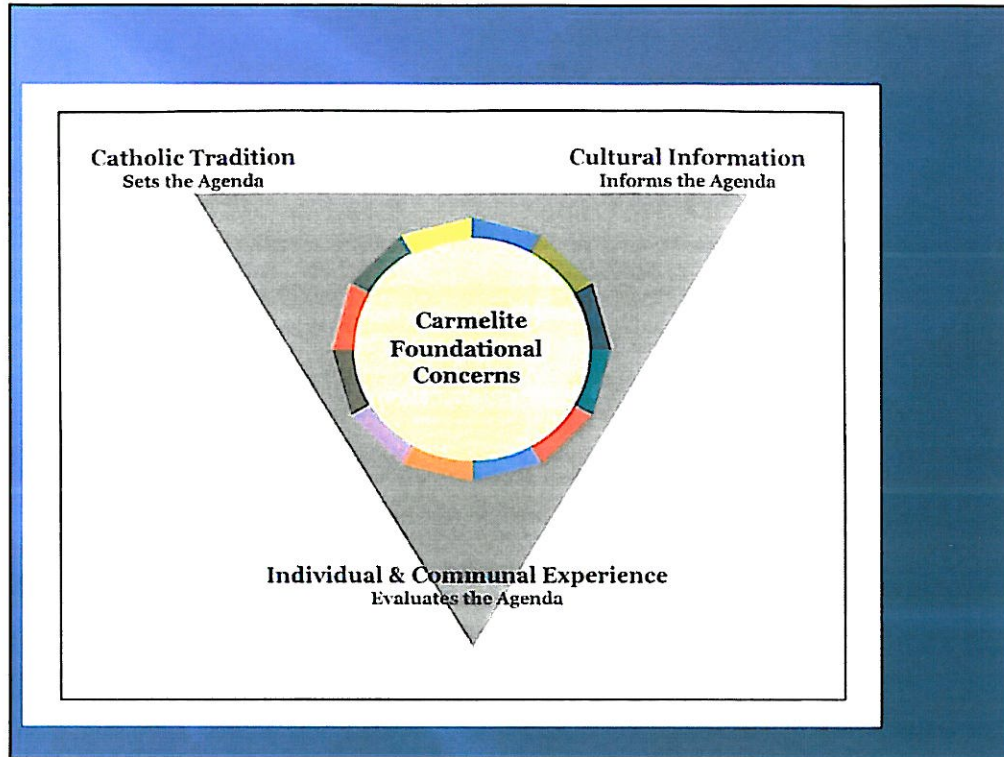

12 Foundational Concerns

This Leadership Program is intended for *all* our sisters: whether they may be called to elected leadership or not. *All* of our sisters share in the responsibilities of discernment and decision-making within the community. *All* are called to grow to their full human and spiritual potential undertaken in a mature, interactive, contemplative process. A leadership program will ensure the continuance of our Carmelite charism into the future. We hope, in time, to open this program to other Carmelite Associations/Federations.

As we look at the 12 Carmelite Foundational Concerns: Catholic Tradition sets our agenda, cultural information informs the agenda and individual and communal experience evaluates the agenda in an on-going process of discernment.
